into solution, for evidently freed with into words at the west court.

"Mrs. Ewing had just arrived in a sedime-thir, returning from the Presby terian mission compound in the north suburb, accompanied by Mr. Ewing and Mr. Hoddle on foot. Before they started that place had been visited by a mobile and others, who. Househ not. of soldlers and others, who, though not allowed to unter the gate, had climbed over the wall in crowds, and made trouble all the afternoon, though they trouble all the afternoon, though they did not inflict any damage—upon either persons or property. A servant, excited by the tunnalt, brought a loaded gua out of the front door with the litent of frightening the mub away. The soldiers wanted to get the gun, but did not succeed, as the ladies quickly got the servant and gun indoors.

"When the crowd had dispussed, Mrs. Ewhys started to Jone from that place."

"When the rowd had dispersed, Mrs Ewing started to come from that place but before she reached the north gute of the city, a large crowd of soldier ran to see her, and they followed her all the way through the city to our compound in the south suburb. The throng of soldiers attracted a crowd of city people, and pogether they filled the street, so that it was almost impassable. They took hold of the sedan chair, and lifted the christian in front of it fifty or a hundred times, in order to see the foreign lady. Mrs. Ewing bore it brovely, and maintained her belf-possession all the time. The gentlemen feaped that the mob would smash the sedan chair, altogether, and not let them out of the city alive.

"At last they reached Dr. Noble's gate

ative.

"At last they reached Dr. Noble's gate and the soldiers in bur west court stood in two lines to gaze at Mas. Ewing as also passed into the house. At that time a great crowd of sity roughs was catelite our gate, whiting their opportunity to plunder the mission houses. Among them were ten or more women. One of them, on being asked why she was standing there, replied that she heard that our houses were "shout, to be pulled to pieces, and she did not know but this she inight get something. There were many young men in the crowd, mostly with dissipated and villations looks, some of them were learn to say that the dissipated she will display the same last, some of them well dressed. Of these last, some were heard to say that the dis-

compress with a fit oil requirements of the law. "The statute samply paquires the group of transdates and party name to be funder a square. It does not designate the precise location of the square or estate whether it shall be directly over the center of the party name or other wase nor does it specify whether the square shall be shaded or rimain when while the white square in the center was doubtless intended as the appropriate margin or place for the cross mark in the shaded square, theirly hydromically the headed square, theirly hydromical the intention of the option that a cross mark in the shaded square, theirly hydromical the intention of the voice, is not such a denorrare from the literal requirements of the statute that a can be held to disfranchise the voicer—such ballots should be counted.

Representatives at the close of the session when a resolution of thunks was offered to the retiring Speaker, the Washlugton correspondent of the Lewiston

Journal sent his paper the following In the closing hours of Longress there was an incident which created no end of comment. It has been hastal at the end of a Congress for the leader of the minority to move resolutions of thanks to the retiring Speaker for his courtesy and fairness in the chair.

At the close of the Fifty-first Congress, when Crist was leader of the minority when Crist was leader of the minority.

At the close of the Fifty-first Congress, when Crisp was leader of the minority, he refused to move this resolution, and the Republicans were compelled to pass a complimentary resolution for Speaker Reed by the yea and nay ote every Democrat voting in the negative.

Two years later Reed magnanimously moved the resolution of thanks and made a speech referring to the high dignity of the office. The resolution was adopted by a rising vote.

Reed not only refused to introduce the resolution, but refused to vote for it when it was introduced by Joe Cannon, of Illinois. There were calls for a rising vote, and everybody in the, House rose

except Reed and Malgell, Payne and Boutelle, who are pour

except Reed and Palgell, Payno and Boutelle, who sat near.

There have been anany times during the salt congress when Reed and Boutelle have been subjected to the unexcendible have going so fat as to send the seigenal actuments of nake bepublicans take their saids.

The rebulke to the Spoaker was all the more pointed beausis the men who administered it are four of the lending Kepublican members of the next Googress, and three of them are members of the present Committee on Weys and Mears.

In made history of feeds anglect to tote for the resolution is this badly in the last long sustion of the lattorgress, during one of the most exciting scenes, the Speaker completely instable has all and ordered Reed, who was endeavoring to explain a parliaminary point to take his sent.

In Main man was a little show in complying, but was university to shiss at when the speaker, to the assonishment of everybody in the House per emptorily ordered the sense in the sacretic state of the anity ment and continued to this reat in the secretic state, and collowed the sense in the secretic state, and collowed the sense in the secretic state, while the assistant sense in this secretic state, while the sense.

All REPUBLICAN.

Report of Fire Commissioners.

Bangor, March 1, 1835.

To His Honor, the Mayor, and Gentlement of the City Council:

The fire commissioners, berewith submit their third annual report of the condition and equipment, together with such recommendations as they deem for the best interest of all conception of the the Hamilton Whist Club of the Bepublicans, being in the field and all the candidates were elected. The Demorrate saw no chance of gaining anything by making nominations in this Republican stronghold and made none.

A light vote was cast throughout the eight of the one about the usual nonder of fires and calls on the department to which prompt attendance has been noticeable, and the less has been below the average years. We would recommend that 2,000 feet of hose be purchased as oarly as practicable, as, in our judgment, the department of the condition and the recommendation of the department of the condition of the part ward four, where there was no attempt made to defeat the regular party enaddates and cleet others in their stead. This increased the vote in that ward stoppenhal. This increased the vote in that ward eoraewbai

The following is the vote in detail: VOTE FOR MAYOR.

Total, Nickerson's majority 257.

within a few degrees of zero. The ice in the streets and sidewniks was again

The inagguration of Mayor-elect Nickerson and the new City Council ocars next Monday. So far as now banged the usual programme will be

followed—the taking of the oath of office and reading of the inaugural address in the foremon, and the election of subordinate officers at an evening session of

Arrangements are being made by Rev. B.B. Me rill for holding a special revival service at the First Congregational church ave nights commencing March 25. Rev. G. B. Hsley, of the Columbia street Baptist church, Rev. J. Penman, of the Central charch, Prof. Beckwith and Mr. Lucus, gospet singer of the Bangor Theological Seminary, will assist in

he meet ngs. OBITCARY, Mrs. Catherine Scars Hardy, one of the oldest and most re-spected residents of Brewer, died at her home at he residence of her son, Mr. Manly Burdy, on Wilson street at 3 o'clock yesterday morning, death result-ing from a severe attack of the grip. Mrs. Harriy had been for many years a

resident of this city and very many friends regretted to learn of her death-She was the widow of the late Jonathan T. Hardy and had reached the advanced age of 89 years and 4 months. She was the daughter of the into Stevens and Annie Atwood, of Winterport, and had resided in Brewer about 60 years. She was a member of the First Congregational charch, having joined it in 1842 terested number of the church. She was a lady of many estimable traits of character and had much business talent that was worthily employed during her life. She leaves one son, Mr. Manly Hardy, of this city, and also a sister. Miss Grade Atwood, of Mount Auburn, Mass., and to these and the relatives will be extended the sympathy of all. The

funeral is to be held Wednesday after-Special Pins For Insect Collectors. "Much care," said a toxidermist, "has to be taken in selecting the long, the pins used in fastering the spacimens in insect suffictions. For chap collections of butterflies and bugs we use the ordinary brass pins mostly, but everyone of these prost in careful. everyone of these must be carefully examined before impaling the insect to see that it is well tinned, for wore the tin

that it is well tinned, for were the tinconting imperfect, or the slightest flaw
evident it would be in nine cases out of
ten libble to oxidize in the body of the
insect, and thus destroy it. We also use
black varnished pins, but they are almost as had, for the glazzed coating soon
cracks, leaving the metal exposed, and
consequently it is not very long before
oxidization sets. Even the more expansive kind, the nickel plated pins, are not
much better. The latest things we have
now are solid silver pins and bronze
pins, and there is being used as an experiment a nickel and afuminium alloy,
which possesses decided advantages ever
all the others kinds need."—New York
Sun.

Mill, when the fire aprend to the building occupied by Jones & Jewell Granille Company, which was in close proximity to the mill.

The total loss incurred by these fires was \$20,412 89. The total lostrance on same was \$70,550.

In consequence of the low pressure of the water service on several occasions the use of the steamer has beau necessary. The number of feet of hose wet during the year was 20,400, the greatest amount used at one time being \$3,350 feet.

The only expenditure in the department of any importance the past year was the purchase of a two-ways water tower, which I consider a great addition to the working tools of the department. I will now recommend that the normal sum of \$10 be expended for a grapple, and by Mr. Smith, of Bangor. There has been one in the department for a year or more, but we have not had an opportunity of using it until the recent fire on Exchange street, when it proved to be an excellent thing.

The chief has received the following, and placed the same in the hands of the treasurer, taking his receipt therefor:

For powder licenses, \$11.00.

In challed it is received the following, and placed the same in the hands of the treasurer, taking his receipt therefor:

For powder licenses, \$11.00.

In challed for the many courtesies received from, and valuable assistance rendered by, your hotorable body; and to the officers and members of the force who, by strict attention to their duties and prompt execution of orders, have made my labors pleasant, I hereby express my thunks. Many thanks are due theseblef of police and his mon for their valuable pasistance rendered during, my term.

All of which is respectfully submitted to your eactiff consideration:

JOHN Masoly. Chief Engineer of Fire Department Children Cry for Pitcheris Castoria.

TRICKS WITH CARDS.

A REMARKABLE EXHIBITION BY A NON-Report of Fire Commissioners.

is the department, an amount in our judgment, entirely too small for a city like ours.

We would recommend that some lieginess, take ours.

We would recommend that some repairs be made on the steamer house floor, it being in a bad if not dangerous should the City Council which have been offered him to go be-fore the public as a professional, pre-ferring a quiet, domestic life to any noforring a quies, assumed as a magician.

Mr. Arnold opened the eyes of his witnesses by what he calls a very simple trick. Two new packs of eards because to the chib were produced. He can be considered by the call of the c

> lected by you. I will not touch either one of the decks." The card was selected, and the gentleman threw the second pack on the floor, the nine of diamonds being the only the meat very tender and rather please art that full face upward. "That," example 1 care the laste. At the time I could claimed Mr. Arnold, "is the card you

that that was correct. lect a card in your mind? Do not men-tion its name."

er to the floor.

required.
To the Chief of Police and his officers, we feel under obligations for the services the American Whist Phyers' league, was asked to draw a eard from the pack, replacing it and keeping the eard in his mind. Mr. Aynold took an egg, selecting one at raidom from a half dezen, and broke it into a tumbler. He showed first that metter the shell her showed first that neither the shell nor the inner skin of the egg had been bro-ken. No card was conscaled up his sloove or anywhere about his person. When the egg was broken, a card was seen in the turabler, crumphat up and sovered with the yelk of the egg Drawing it cut, Mr. Arnold askel,

man any hand I choose, but I weedda't mow what it is that gnables me to do these tricks. I saudied them all out buy-self, but I can't explain how or why I do them."—Philadelphia Times.

ther in heaven is perfect, be yo also perfect of handing hose alone when a night shorm is given. I will further say that repairs are much needed in the scanner's house, Harlow street, the floor and flooring timbers being in a bid considion.

I would also advise that a new hose house be boilt tor occupancy of Hose No. 8, the present needing unsurable for use. The whole amount of hose in the possession of the depirishment is 5,900 feet; of this 3,500 feet is le good condition and the reat is inferior. I here recommend the purchase of 2,000 feet of hose the coming year as there is an over abundance of poor hose.

Doting the past year there has been 64 calls on the department of this year; 48 were bell, and the remaining its year; 48 were bell, and the remaining its fewere still alarms. Of the whole number of alarms, 7 were for himmeys busining and, and there was one false alarm. These of course caused no less. There was also one call from our of town.

Fires occurred in 53 quiddings, of which 41 were wood, and 9 were brick and 3 were stone.

At only one time did the dig extend beyond the building in which it originated, that being at Washburn's Planing Mill, when the fire apread to the building occupied by Jones & Jowell Granding Company, which was in close proximity to the mill.

The total loss incurred by these fires was \$20,413.80. The total loss incurred by these fires was \$20,413.80. The remaining the proximity to the mill.

their healing essences. Their inborims not been peer in vain. They have lunde a discovery that will prove a blossing to maintime. It consists of a cordial that causes immediate relief in cases of indigestion. The importance of this discovery will be apparent when we realize that eachy mine-tentile of all our anticrings are caused by mine-tentile of all our anticrings are caused by dyspeptia or indigestion. Norally every nerson you meet has this digestive trouble in some of its varied forms—sick hendache, distress after eating, pain and fallows in the chest after eating paintation of the heart, etc., are but symptoms of Indianston. Twelvest them. their healing essences. Their laboring not been palpitation of the heart, etc., are but symptom of indigestion. To relieve these sufferings in been the study of the Shakers, and they have

Notice to Log Owners.

IN FAVOR OF HORSE MEAT.

"Shall we cat horse?" Is a question which a Philadelphia newspaper has been putting to leading voterinarisms. While none of them answered squarely in the affirmative, there was general concurrence in the opinion that herse meat makes rather good eating at a ninch. Francis Bridge said, "The flesh is as nutritious and in flavor as good as that of the bovine, and I see no good reason to interdict its use as human food." W. L. Zuill declared that he would cat it in preference to pork. It is "more juicy and of better flavor than ox flesh." he said. S. J. J. Hargar, who had once eaten a mule tenderloin, found it inferior in fiber and taste to

E. M. Michiner thought that horse

flosh was not injurious to "human health," and he pointed out that nei-ther tuberenlesis, actinomycosis or trichina was found in the horse, the exception being noted that ruro cases of inherculosis had been recorded. John W. Gadsden believed that the flosh of young horses properly cooked was good for man, and he thought that if horses got much cheaper "there would be a grout temptation to try it." Samuel C. Weber said: "The flesh of the horse lenging to the club were produced. He lad never seen them before. Shuffing one deck, he hald it out to one of the should be more digestible than other gentlomen present, saying: "Select a meat, which often somes from animals card from this pack and then return it, keeping the card in your mind. I will cessively fastened. In Europe, where turn my back to you as you make your selection. One of the other gentlement will take the second pack and throw it on the floor. The only-card that will select the card select floor unward will be Alexander Glass sounded a warning

in the following experience: "In two instances, when I ato horseffesh, I found ant to the taste. At the time I could not shake off the thought, 'What if this A cheer grooted the amounteement of that meat was very rare." Soveral years ago Dr. Huidskoper of Philadel-"New, hero is a good one," said the ontertainer. Pointing to Charles Yar nall, he continued: "Will you kindly sedimer, at the canclusion of which he dinner, at the canclusion of which he amounted to his guests, who were much pleased with the repast, that they nach dired off the careass of his old white horse Fedora.

and at the expense of steamers, when, with a fire pressure, the use and expense of steamers would not have been acceled.

Another matter which seems wrong in the water board charging the city with ISA at \$10 per hydrant, while many of them are not used during the entire ver, and many are private hydrants; it makes the expense of operating the department look large, when, in fact, there is \$7,320 deducted for pay of hydrants. We earneastly desire this matter may be considered, and a less rate e-tablished, or a larger appropriation made.

We would recommend that the pay of the Chief Engineer be placed at least \$100 per year; the duties of this dice are dangerous to some extent, and very trying during a fire, in order to be able to determine how to handle a fire, to the best possible advantage; he must be familiar with all the principal buildings and stores, knowing their contents, and all places of expens, and perfectly familiar with all the principal buildings and stores, knowing their contents, and all places of expens, and perfectly familiar with all the principal buildings and stores, knowing their contents, and all places of expens, and perfectly familiar with all the principal buildings and stores, knowing their contents, and all places of expens, and perfectly familiar with all the seminator and author the two two direct the first card was told to write the number of ham placed his number and all blaces of expense, and perfectly familiar with all the principal buildings and stores, knowing their contents, and all places of expense, and perfectly familiar with all the seminator and author the two two direct the first card was told to write the number of ham placed his number and all the two to gettlers, and all places of expense, and perfectly familiar with all the seminator and all places of expense, and perfectly familiar with all the seminators and stores, and perfectly familiar with all the seminator and all places of expense. Wily Reynard. Those familiar with the "Fables of even. If he is inside when the trap is set, he waits until some other annual

springs it and then emerges to cut the victim and the bait. Only when drisen by the terrible pangs of hunger will be temps fate in fats own person. Most infinials gorge themselves when they are fortunate enough to come across a superaland mee of frow. Not so with Reynard. Should be fine a poultry yard we'll stocked and iff protected be fills his larders first. Nov does he, us the proverb says, "jut all his eggs in one has ket." He puts one fowl in a hedge, sides another in a bush, places a third in a hole in a tree, rapidly digs a cavity for a fourth and covers it up again, re-mondering in each case where his stores are concealed. And whon his supplies are sufficient in his own estimation be takes a fine has chicken or duck to his "earth" for present enjoyment.

Of one subject over Mr. Freeman would have been forced to admit that Mr. Freude, the historian of the reformation, was a master. Freado was a been sailor and could manage a yacht or yawl in the ugliest sea as if he had been bred to the Jusiness. So he was quick the streets and sidewalks was again frozen but it thawed considerably during the day.

The travelling on the country roads is now prefty hard. In the morrings the snow and ice are solid enough but are so rough as, to make travelling uncomfort. She follows: 2 commissioners, 1 chief engineers, 2 assistant engineers, 1 engineers, 1 from being a non-provingent.

repairs be made on the Scenner nouse, floor, it being in a bad if not dangerous condition; also, should the City Council think advisable, a new and more convenient house should be furnished for Elijah Low Company No. 8; the house now occupied by that company is entirely unfit, it being small and cheap built, and never intended for the purpose it is now used, viz: keeping a horse and apparatus therein, toge her with driver and one night man; we recommend that a new house be erected on the same lot, properly constructed to afford pleasant and healthy quarters for this company. The other houses, except as mentioned, are in fair condition, and need no expensive repairs; we feel that with these recommendations carried out, the department can be asfely operated for another year, without any great outlay.

CITY REPORTS.

attention to the trouble and expense the department has suffered from the careless handling of wires by corporations running the same through our city; there has been an ordinance passed prorunning the same through our city; there has been an ordinance passed providing restrictions when such corporations or individuals as ask permission to run wires, also a superintendent of city wires, appointed to superintendent of city wires, appointed to superintend the running of same. We sarnestly hope that no permit be given except under such restrictions as the superintendent of wires sees fit to impose.

We would wish to call your attention to other things which have added to the expense of operating the department at many or several fires; the water pressure has been low which need sitated the use of steamers, when, with a fire pressure, the use and expense of steamers would not have been accepted.

Another matter which seeins wrong in the water board charging the city with 183 at \$10 per hydram, white many of them are not used during the entire year, and many are private hydrams; it makes

year, without any great outlay.

We would also desire to eall your

Mr. Lewis Kennedy, who has been ill with the grip, is again able to get out.
